

These birds are commonly found near the San Elijo Lagoon Ecological Reserve Nature Center trail during autumn (from October to November). Less common species may be seen from time to time. Some birds may not be seen, but may be identified by their call. Tide level will also affect viewing.

Chances of viewing are: **G = Good, F = Fair, and L = You got Lucky**

<b>NAME</b>	<b>View</b>	<b>RESIDENCY</b>	<b>WHERE TO LOOK</b>
